Portfolio : <https://navaneeth-mahesh.github.io/nvn-spatial-portfolio/>

Objective :

Passionate Computer Science student and Full-Stack Developer with hands-on experience in building responsive web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing modern user interfaces, RESTful APIs, and database-driven applications. Eager to apply problem-solving abilities and software development skills while continuously learning emerging technologies in Full-Stack Development and Artificial Intelligence.

Education :

BTECH - COMPUTER SCIENCE AND ENGINEERING

Pragati Engineering College (Autonomous)

CGPA : 8.1 | 3rd year

INTERMEDIATE

Aditya Junior College (STATE BOARD) - KAKINADA

Percentage - 83% | YEAR : 2024

SECONDARY SCHOOL

Ushodaya school (STATE BOARD) - KAKINADA

Percentage - 81% | YEAR : 2022

Projects :

1. Personal Portfolio Website

A modern full-stack portfolio built to showcase my work, skills, and journey as a developer. This project combines immersive visual design, smooth interactions, and backend integration to create an experience that goes beyond a traditional portfolio website.

The goal of this project was not only to present my projects and achievements but also to challenge myself with modern web technologies, advanced animations, API development, database integration, and deployment workflows.

link : <https://portfolio-six-sooty-cskt3wx5g5.vercel.app/>

2. CODE ESCAPE

Developed CodeEscape, a gamified coding platform designed as an interactive escape room where users solve programming challenges to advance through levels. Implemented multi-language support and real-time code validation using integrated APIs, enabling instant feedback on solutions. Built a performance dashboard to track user progress and problem-solving efficiency. Designed a responsive, hacker-themed UI and developed core game logic using JavaScript to enhance user engagement.

Link : <https://code-escape-0a60.vercel.app/>

3. BITE & BOWL

Bite & Bowl is a full-stack food ordering web application designed to provide a seamless online dining experience. The platform enables users to browse menus, explore food categories, manage carts, and place orders through an intuitive and responsive interface. Built using modern web technologies, the project focuses on user experience, secure authentication, efficient data management, and scalable backend architecture.

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT

Link : <https://bowl-and-bite-ecommerce-store.vercel.app/>

4. TASK-MANAGER

Developed a full-stack task management platform using React, Node.js, Express, and MongoDB. Implemented secure user authentication, task creation, updating, deletion, status tracking, and dashboard analytics. Deployed the frontend on GitHub Pages and the backend on Render with MongoDB Atlas integration.

5. INKFLOW - BLOGGING-PLATFORM

Designed and developed a full-stack blogging platform that enables users to create, edit, publish, and manage blog posts with secure JWT-based authentication and role-based authorization. Implemented RESTful APIs using Express.js and MongoDB, integrated Cloudinary for image uploads, and built features including comments, likes, bookmarks, search, and user profiles. Developed a responsive frontend using Next.js, React, TypeScript, and Tailwind CSS, following a scalable architecture with clean code practices. Deployed the backend on Render and the frontend on Vercel.

Tech Stack: Next.js, React, TypeScript, Express.js, Node.js, MongoDB, Mongoose, JWT, Cloudinary, Tailwind CSS, REST API, Render, Vercel.

Certifications:

- Coursera Web development in React js development basics
- Coursera-HTML&CSS CRASH COURSE
- Coursera-Introduction to Artificial Intelligence (AI)
- NPTEL - Programming in Java (Elite), IIT Kharagpur - Score: 90%
- EY Certificate AI Concept
- GOOGLE ANDROID DEVELOPER - Virtual Internship - EduSkills
- AI-ML -Virtual Internship - Eduskills

Internships :

01. [Thiranex.in](https://www.thiranex.in) as Full-Stack-Developer Intern During “June 01 - 29”.

Technical Skills :

-
- **Languages:** Java,, Python (Basics)
 - **Frontend:** HTML, CSS, JavaScript, React.js
 - **Backend:** Node.js, Express.js
 - **Databases:** MongoDB, SQL
 - **Core Concepts:** Data Structures & Algorithms, Operating Systems, Discrete Mathematics
 - **Tools & Platforms:** Git, GitHub, VS Code

Hobbies and Interests:

-
- Exploring new technologies and full stack development trends
 - Problem solving and practicing coding challenges
 - UI/UX design and creative web interfaces
 - Content creation and video editing
 - Fitness and gym training

Declaracion :

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief. I understand that any misrepresentation or omission may result in the rejection of my application or termination of employment if selected.
